

## Is the Left Playing with Fire Again? 2/14/2017

In my opinion, make no mistake this is not your Father's, read Baby Boomers, violent protests of the 60s. What is going on here is an all-out revolution and it is designed and funded to overthrow our current legal Government that has vowed to "Take our Country Back" by draining the Swamp to rid ourselves of the current anti-democracy, anti-Christian values, anti-constitution, anti-second amendment, and anti-freedom, manipulators of our government. It is no different than what Germany did to Russia in 1916 to overthrow the Czars that ruled Russia for centuries. The Germans, to get Russia out of the war (WWI) took Vladimir Lenin out of exile in Zurich, put him on a heavily guarded train, stuffed his pockets with 10 million dollars, and sent him back to Russia to start a Revolution using the leftist Bolsheviks. This created Chaos in Russia and forced the Czar to withdraw his troops from battling Germany to quell the violence that Lenin created at home. Today that 10 million that overthrew the Czars is in today's dollars over 234 million and today's Vladimir Lenin is named George Soros. And the same type of Chaos, for the same type reasons, is what we are witnessing. Unless real Democrats that truly believe in America but have a different ideology, get involved to stop this revolution, we are looking at the next 70 years of living in the once great American experiment. I name below some Democrats that can and must stop this madness.

Former President of the United States: Jimmy Carter

Former President of the United States: Bill Clinton

Former White House Press Secretary: Josh" Earnest

Former White House Press Secretary: Dee Dee Myers

Former Director of the Central Intelligence Agency: Leon Panetta

Current Senator from West Virginia: Senator Joe Manchin
