

0717/2017 Pat,

"Is Russia an enemy of the United States?" Absolutely She is.

Why do you say that, I hear you asking? Well, in simple terms, any ally of Iran and/or Syria has to be our enemy because those States are enemies of The Masters of the Universe which we have a Strategic Alliances with. And the proof is that the serfs of the Masters of the Universe, read our United States Senate, has the audacity to openly cultivate 98 out 100 votes to do their bidding to further the punishing of Russia.

Foregoing any logical or sensible reasons, and without any rationale behind their non-substance, slightly debated votes, they sold it to our dumbed down, brainwashed, citizenry as it being in the best interest of the United Sates. And so while President Trump is still campaigning on draining the Swamp, we readers of Buchanan, see the Senate vote as a sign that it is too late. The Swamp is really a big Sink Hole that has already sucked up this once great Nation. So why bother going through the motions of having a United States Senate? Of course we need them. They are busy doing the business of the People defeating such major life saving bills that would not allow Transgenders to serve in the Military. And for us Republicans, it is sad to say that 24 of our Republican Senators voted with the Democrats to keep Transgenders serving in the front lines of our defense. We used to be "One Nation under God" and thanks to the Knights of Columbus for spending millions of dollars defending the right to keep that phrase in our Pledge of Allegiance, but really, is there any presence of God in our Halls of Congress? It appears to me that God has vanished and now the Masters of the Universe have replaced God. Thankfully we still have the right to vote and we have a Patrick Henry of today as our spokesperson. I make sure my voter friends know where to find Pat Buchanan.
