

It Ain't Over Till It's Over 08/22/2016

Pat,

You are absolutely spot on with it being not over but I believe Yogi stated until the Fat Lady sings. That said, I do think that Trump is facing a very tough battle but not the one with Hillary but the one with the Establishment. Trump's problem, if you can call the revolution his problem, is he wants to get us out of the Middle East and work with Russia to rid ourselves of ISIS. Wow imagine working with Russia, a staunch ally of the establishment's declared Talking Point "State Sponsor of Terrorism". But unfortunately for them, even after day in and day out, 24/7, the same message being broadcast by CNN, CBS, ABC, NBC, Fox News, and printed by The New York Times, The LA times, The Washington Post, and more, all stating that Trump is wrong and his potential policies of getting us out of the Middle East and stopping nation building cannot be allowed to happen, the American People disagree. Their revolutionary patriots still shout "Amen" to America First.
